Guidelines for Oral Presentations

a. PLENARY LECTURES have 35 minutes for their presentation, with approximately 30 minutes for their presentation followed by 5 minutes for questions and answers.
b. INVITED LECTURES have 25 minutes for their presentation, with approximately 20 minutes for the presentation followed by 5 minutes for questions and answers.

1. The Symposium room is equipped with one LCD projector.
2. The LCD projector will be set up in the room, however we ask that a speaker bring his own computer.
3. We also ask that speakers go to the symposium room during the break prior to their paper presentation to check the audio / visual equipment. Those who wish to use Macintosh PC, let me ask you to use your own PC.
4. For speakers using an LCD projector, please check beforehand to make sure it operates exactly as planned. Re-connecting and / or resetting of computers shorten the time available for presentations.

Note: All questions regarding poster presentation should be sent via e-mail to:
